

INJECTORS

The injectors for diesel vehicles with common-rail fuel injection system are rebuilt and refurbished with original parts from a certified European partner.

From the beginning, we can cover more than 2000 vehicle assignments with more than 125 articles and therefore our range is one of the largest – immediately available.

All items are exchange parts with refund. For the exchange we can only accept complete and undamaged original parts. Further and detailed information about return and exchange are available on demand.

- **Injectors of all well-known manufacturers such as Bosch, Denso, Delphi,...**
- **completely refurbished original injectors**
- **only original parts are used for the reconditioning**
- **second largest range in Germany in TecDo**
- **with article specific seal**

**On the backside
you will find our
accessories
program**
